Electrical Permit Instructions

Stop Work Orders. Note that this permit, if authorized, applies only to the work described herein and that a stop work order may be issued if the work goes beyond what was applied for.

Fee Calculation. The fee calculation depends on whether the proposed work is for a commercial or residential property. Commercial projects include residential properties of three or more units.

For **Commercial Properties** the fee is \$200 per floor over 1000 sq. feet and \$100 per floor for floors less than \$1000 sq. feet plus 1% of the total cost of work.

For **Residential Properties** the cost is \$75 for general wiring in an existing building and \$150 for new construction or a total rehab.

Inspections. All projects are subject to a rough and a final inspection and no inspection may occur until all the necessary materials have been submitted to the department. Please request inspections at least 24 hours in advance and no inspection request will be accepted by voice or email.

Fire Alarms. Note that if you are installing a fire alarm,

we have a separate permit application for that. Please ask our front desk staff for a copy.

Insurance. Either the owner of the contractor is required to have a liability policy naming the City of Albany as insured or co-insured covering the work described in the permit application. This liability policy must be, at minimum, in the following amounts:

- a) \$100,000.00 – Personal Injury – single incident
- b) \$300,000.00 – Personal Injury – cumulative
- c) \$50,000.00 – Property Damage

Proof of Insurance. Before we may issue an electrical permit, we must have proof of insurance. **A contractor may file** an Owner’s and Contractor’s Protective Liability Policy, naming the City of Albany as an additional insured, for the individual job, in the required amounts; or the contractor may file a blanket policy with the City, covering all work to be undertaken within the period of the policy.

Worker’s Compensation. As per NY GML § 125, we cannot issue a permit without proof of worker’s compensation insurance. From contractors, we will need one of the following: 1) WCB form C-105.2 or U-26.3, 2) WCB form SI-12 or GSI -105.2, 3) WCB form CE-200, and/or 4) WCB form DB 120.1 or 120.2.
