\* Project Locations and Scope-of-Work are tentative and subject-to-change based on budget, construction schedule, and changes in field conditions.

\*\* If trees in front of your residence are slated for removal then you will receive an additional letter from the City Forester with more information. At least one new tree will be planted for each tree removed but tree replacement at exact location of removal is typically not feasible.

+ The Albany Water Department (AWD) has a sewer replacement project planned for this section of Osborne Street prior to our Street Resurfacing & Sidewalk Reconstruction project. We will complete our work after AWD has completed their project.
